IT'S ALL ABOUT **APPRECIATION**

Corporate gifting is all about showing appreciation; for your customers, for your business relations, or for your staff. With a carefully chosen gift you can show that you appreciate a person's efforts and that you value the relationship.

The House of Inspiration is here to inspire you and to help you with the selection of the perfect gift. Because, when you add your brand to a gift, it must be just right. On these pages you will find world-renowned retail brands to seduce even the most demanding of recipients. The Green Concept and Elevate NXT will offer just the right choice for the sustainably conscious consumer. And for those with a theme in mind that reflects the current unique situation, there are themes relating to "Work from Home" and "Be Safe".

So in short ...relax, enjoy and be inspired.

BE SAFE

Last year has brought about a major change in the way we go about our daily lives, our work and how we look towards the future. This also has an impact on the products we use in our daily lives; products that were completely unknown to us several months ago are now part of daily life. For companies looking for branded products to give to their business partners and staff as giveaways or corporate gifts, this opens up a new category of products and opportunities for branding as well. The Be Safe Concept has been developed especially for this new category in promotional and corporate gifts. When you want to help your staff to stay safe or you want to give your business partners a corporate gift that shows you care, the Be Safe Concept will offer you the right products. With different options from customisable face masks to anti-microbial hygiene keys, the products in this collection are all suitable for today's socially distanced society.

BE SAFE

In 2020 we learned the importance of staying safe by preventing microbe growth as much as possible, in our daily lives. Using hand gels and soap to keep our hands clean has become a habit but we're also realising that our everyday products can carry risk as well. This has led to a range of products that are antimicrobial or products that eliminate microbes by using UV light. These products have become popular gifts for companies to give to staff and business relations. Showing you care for people's health and safety is essential in this day and age. And these products are still designed to be branded with a company's logo!

The made-in-Europe range of "Pure" items has 'antimicrobial protection' due to the addition of Biomaster technology. Biomaster (manufactured by Addmaster) is proven to inhibit the growth of bacteria by up to 99.99%. The active antibacterial technology is built into the product during the manufacturing process. It binds to the cell wall and disrupts the growth of harmful micro organisms such as bacteria and mould for the useful lifetime of the product. The addition of Biomaster to a range of PF Concept products does not affect the product's function, branding options, smell and taste or its end-of-life recyclability!

BE SAFE

Working from home has become the 'new' normal. Online meetings, children popping up during a call, cats on keyboards, we have all been there over past months. And it will stay. The balance between working in an office and working from home has changed forever. This is also reflected in corporate gifting, which has become more personal. Onboarding kits are sent to a home address and a goodie bag for a conference is now more likely to include true wireless earbuds. Working from home products can support a company's strategy as well as any other gift. Whether you choose more sustainable products or you opt for a corporate look, make sure your staff can work from home as well as from the office.

GO GREEN

When you are looking for a promotional product to carry your logo, you want it to be compliant with European law and if possible a more sustainable option than just a traditional plastic give-away. But then the question arises, what is a more sustainable option? With thousands of promotional products available and a lot of discussions about what is sustainable and what is not, we have opted to look at our Green Concept from the Reduce - Reuse - Recycle perspective.

REDUCE: Many promotional products are made of different types of plastics. By selecting products that have reduced plastic content, for instance because they are made of a mix of natural fibres and plastics,you are contributing to the reduction of the overall amount of plastic used.
REUSE: We believe this is one of the most important messages you can give with a promotional product: Reuse the items for a long time. More countries are banning single-use plastics like cups and cutlery. Reusable coffee mugs support this sustainable target and are a great canvas for your brand. The same applies to cotton or jute totes instead of plastic bags.
RECYCLE: We are actively developing products made of recycled material, like our Americano® coffee tumbler on the cover. This tumbler is made of the waste material of all Americano® tumblers that we produce, thus making our whole Americano production more sustainable! But you will also find recycled paper products, recycled glass, recycled PET umbrellas and bags, even pens made of recycled bottles. When looking at recycling, the possibility of recycling after use is also a factor that we look at.

So, are the Green Concept products in this catalogue 100% certified sustainable – no. Do they represent our suggestion for a more sustainable choice when you are looking for a promotional product – yes! We are constantly developing new products. Our first priority is for them to be compliant and sustainable, but it is a process, it will go step by step. Our Green Concept will expand every year, continuously providing you with more choices for sustainable promotional products.

WHAT IS BSCI?

Amfori BSCI is part of amfori, the leading global business association for open and sustainable trade. It enables its members to enhance human prosperity, use natural resources responsibly and drive open trade globally. Amfori calls this ""Trade with Purpose"". In a global marketplace, supply chains are becoming increasingly complex. It's now more necessary than ever for companies to improve visibility over their production – and to drive improvements across their supply chains wherever possible. Since 2003, amfori BSCI has enabled companies to trade with purpose by improving social performance in their supply chain. Amfori BSCI is open to all retail, brands and importing companies committed to improving working conditions in the global supply chain. The system provides companies with a social auditing methodology, and a reporting and remediation system in order to follow the process of continuous improvement. Amfori's strong code of conduct has 11 principles that support the members. These range from fair remuneration to no child labour, along with a step-by-step approach that enables companies to monitor, engage, get empowered and receive support to put sustainable trade at the heart of their business.

NEW STEPS IN SUSTAINABILITY

We see sustainability as a step by step process. We are committed to introducing new sustainable products and brands every year. In this catalogue your will find more (certified) sustainable options than ever before. We believe that it is important for today's consumer to know how their promotional product was made. Knowing that a product was made in a factory that has a social audit like BSCI or that the materials used are recycled or organic gives the assurance that a product will not unduly harm the environment or the people in the supply chain.

So how do we inspire you to go green? This year we are expanding our Elevate NXT collection of GOTS and GRS certified apparel with new styles, including maks, and we have added a great range of GRS certified bags. You will find notebooks made of waste wool and waste cotton, pens that were bottles and of course a GOTS certified cotton tote and drawstring. And the best news of all, we can also brand your products with certified inks, so your promotional item will the green "all the way".

BENEFITS–BY TAKING PART IN AMFORI

BSCI MEMBERS CAN:

- Improve the social performance of their supply chain
- Reduce cost and increase efficiency
- Have a clear and consistent approach that highlights best practices
- Improve the resilience of their business to industry and market changes
- Improve their businesses' reputation by meeting the expectations of your customer and stakeholders

GO GREEN

Elevate NXT is the next step in promotional apparel. With the garments of Elevate NXT, we follow the supply chain from the source to the branding. Made of recycled polyester or organic cotton, our Elevate NXT styles are truly sustainable. And of course, they have all the qualities you have come to expect from an Elevate product: designed for branding and super comfortable to wear. And as we believe that the branding on a product is as much a part of it as the buttons or the zipper, the inks used for the branding are certified too! The inks used are sustainable and free of any harmful chemicals – meaning they do not contain hazardous substances for humans. Available in six popular promotional colours and our special Elevate NXT blue, this really is the next step in promotional apparel: certified from yarn to inks!

Certified by Control Union
CU 1019665

WHAT IS GOTS?

The GOTS –Global Organic Textile Standard– is the worldwide leading textile processing standard for organic fibres. This standard also includes ecological/ environmental (f.e. energy, water, wastewater and chemical use) and social criteria. The entire textile supply chain is backed up by independent certification and traceability is key in this process.

The Global Organic Textile Standard aims to define worldwide recognised requirements that ensure the organic status of textiles - from harvesting of the raw materials through environmentally and socially responsible manufacturing up to labelling – in order to provide a reliable assurance to the end consumer.

With one certification accepted in all major markets – textile processors and manufactures are enabled to export their organic yarns, fabrics and garments.

Certified by Control Union
CU 1019665

WHAT IS GRS?

The GRS –Global Recycled Standard– is an international, voluntary full product standard that sets requirements for third-party certification of recycled content, chain of custody, social and environmental practices and chemical restrictions.

The standard aims to meet the needs of companies looking to verify the recycled content of their (both finished and intermediate) products. Also GRS is intended to verify responsible social, environmental and chemical practices in production.

The objectives of the Global Recycled Standard are to define requirements that ensure good working conditions and accurate content claims, as well as minmising harmful environmental and chemical impacts. This includes companies involved in ginning, spinning, weaving, knitting, dyeing, printing and stitching in more than 50 countries.

GO GREEN

The first step towards a circular society is to use recycled and recyclable materials as much as possible. When we develop items we decide per product what is the most important element. Ideally you look for products that are recycled and can be recycled easily again. The best example is our 100% recycled Americano® with spill proof lid. This item is made of 100% recycled plastic, without any other material, meaning it can be recycled easily again. Another good example is the new Authentic range of recycled glassware. The products are made in Europe from recycled glass and their end of life, they are 100% recyclable again. But even when a product is less easy to recycle, using materials that are recycled will use less resources than those needed to make a product out of virgin materials. Look for the Green Concept products when you are looking for a more sustainable option

GIVE

What better way to show your appreciation than with the gift of a well-known retail brand? Nothing says thank you better than a quality gift in combination with your logo. The House of Inspiration offers a world-renowned brand for each important gift category which can be paired with your company logo. Choose Americano® when you are looking for durable drinkware. Parker and Waterman are the most well-known fine writing brands in the world, and are probably the most appreciated corporate gifts you can select. And when you are looking for a sustainable option, Parkland bags are an obvious choice. Let these brands inspire you!

BRAND

A well branded corporate gift will be appreciated and cherished by the receiver. The branding should enhance the product. And, in today's new society where distance and hygiene have become so important, being able to brand products with a person's name has become a must. Being able to identify your coffee tumbler or water bottle has changed from a nice personal gift to an essential element of corporate gifting. Onboarding gifts for new people have become more personal and work-from-home sets are probably the most popular corporate gift. Use high-end techniques like laser engraving or digital print to make your corporate gifts personal, inspirational and memorable!

MAKE IT **PERSONAL**

THOROUGH
SUSTAINABILITY

We strive to operate with sustainability in mind at all times. The products we sell are manufactured in a responsible and ethical fashion and abide by national regulatory requirement norms in each of our markets. These very norms allow our production experts to identify any issues early on in the development phase that might not comply with the aforementioned norms and hinder our sustainable production methods.

Product compliancy is also monitored throughout the entire production life cycle. We work hard to meet our customers' high expectations and transparency requirements for the European markets. Up-to-date regulations are made readily available during the production life cycle ensuring products are compliant down to the very last detail. All products are subject to compliancy reviews prior to and after launch at both our own testing facilities and at third party testing labs.

Our solid quality-control methods ensure that the products you'll choose for your brand can be sold and used with confidence.

GOVERNANCE

Sustainability is an ethical imperative that we follow at all corporate levels. In partnership with our supply chain, we aim at continuous social, ecological and economic improvement in the sourcing of our products, the products themselves, our logistics chain, and our own production and branding facilities.

PRODUCTS

The way we assure product responsibility adds extra value to our promotional products. We are continuously improving our Product Portal, e.g. with information on compliance with European REACH and RoHS chemical requirements, as well as voluntary sustainability standards such as Oekotex certification.

CUSTOMER

For the customers of promotional goods, sustainable branding becomes increasingly important. Their credibility builds on transparency, reliable sourcing and sustainability of both the production process and the promotional product itself.

SOURCING

In partnerships for progress with our vendors and through engagement in multi-stakeholder initiatives, we aim to build ethical global supply chains. Through our factory audit program, we work towards enhanced social standards, improved working conditions for factory workers as well as environmental risk mitigation.

amfori
Trade with purpose

PRODUCTION

For our production facility and pan-European logistics center, environmental excellence is a win-win strategy. Its ISO 14001-certified environmental management aims at continuous improvement of environmental indicators. Long term investments are showing results, e.g. in the reduction of materials and energy consumption.

CERTIFICATES & REGULATIONS

To sustain the highest level of quality management and legal compliance for our safety and first aid products demands a strict self-monitoring security system. We are therefore also by nature obliged to stay alert with any changes in all required legislations worldwide and keep all our ISO and EC certifications as well as product registrations updated. We follow the PPE guidelines on application of Regulation (EU) 2016/425 of the European Parliament and of the Council for Personal Protective Equipment.

PPE stands for (Personal Protective Equipment). Equipment designed and manufactured to be worn or held by a person for protection against one or more risks to that person's health or safety.

New PPE Regulation (EU) 2016/425 in effect by April 21, 2019. As of April 23rd, we have all our standard reflective products and garments updated according to the new PPE regulation (EU) 2016/425. EC type examination certificates and approvals issued under Directive 89/686/EEC will remain valid for sales purposes until April 21, 2023, unless they become invalid before that date.

Americano®

MADE IN EUROPE

NEW! Spill-proof lid option.

Durable polypropylene material makes the mug ideal for repeat use and is microwave and dishwasher safe. It's also fully recyclable.

Secure screw-fix lid.

Double-wall design for extra insulation.

Silicone grip option for extra comfort and decorating opportunities.

Wide choice of styles, capacities, colours and decorating options to help you create your perfect Americano.

HOWEVER YOU DRINK YOUR COFFEE,
THERE'S AN AMERICANO® FOR YOU!

WHAT'S NEW
IN THE AMERICANO COLLECTION?

NEW! SPILL-PROOF LID

Designed to protect against spills, the lid has been designed without any silicone. This means the lid is fully recyclable. We even have a version from recycled plastic!

Available on selected models across the range!

NEW! RECYCLED OPTIONS

The Americano Recycled options offer you a mug made entirely from in-house pre-consumer recycled plastic. Or, to add a splash of colour to your mug, the Americano Eco has a recycled mug, with a standard lid in a range of colours.

NEW! ANTIMICROBIAL PROTECTION

The Americano Pure contains Biomaster antimicrobial technology. This provides protection against the growth of harmful micro-organisms on the surface of your mug.

WHICH *Americano*® IS RIGHT FOR YOU? FIND OUT HERE...

DRINKWARE **INSULATION CHART**

Based on successful retail drinkware pieces, we have designed a better way to drink with style. Whether you prefer your beverage HOT or COLD.

Insulation refers to how the materials and construction prevent temperature change – basically, the ability of a piece to keep a beverage at its original temperature, whether it's hot coffee or ice water. Insulation is achieved through double-wall construction, which has two purposes – to eliminate condensation from cold beverages on the outer wall and maintain the temperature of the beverage within the inner wall.

There are several types of insulation, and we offer them all. It just depends on your budget and the type of performance you're looking for.

GOOD	BETTER	BEST	SUPERIOR	SUPERIOR
AIR INSULATION	**FOAM INSULATION**	**VACUUM INSULATION**	**COPPER VACUUM INSULATION**	**COPPER VACUUM INSULATION WITH CERAMIC LINING**
Air between inner and outer walls	Foam between inner and outer walls	No air between inner and outer walls	No air between inner and outer walls + copper plated inner wall	No air between inner and outer walls + copper plated inner wall. Includes ceramic lining.

Hours indicated may vary depending on item construction, material, ambient conditions, and use.

Information about prices, conditions, and printing techniques can be found on the last page.

WHAT IS RFID?

Radio-Frequency Identification (RFID) is the use of radio waves to read and capture information stored on a tag attached to an object. The RFID tag provides a unique identifier for the object and like a bar code or magnetic strip, must be scanned to get the information.

WHAT IS RFID BLOCKING TECHNOLOGY?

RFID-blocking wallets and pockets are designed to help protect you from this new brand of electronic pickpocketing. These items are typically made from a material that interferes with radio waves, making a cards RFID chip difficult to read.

ELEVATE NXT

Elevate NXT is the next step in promotional apparel. With the garments of Elevate NXT, we follow the supply chain from the source to the branding. Made of recycled polyester or organic cotton, our Elevate NXT styles are truly sustainable. And of course, they have all the qualities you have come to expect from an Elevate product: designed for branding and super comfortable to wear. And as we believe that the branding on a product is as much a part of it as the buttons or the zipper, the inks used for the branding are certified too! The inks used are sustainable and free of any harmful chemicals – meaning they do not contain hazardous substances for humans. Available in six popular promotional colours and our special Elevate NXT blue, this really is the next step in promotional apparel: certified from yarn to inks!

Global Recycled Standard

Certified by Control Union
CU 1019665

WHAT IS GRS?

The GRS –Global Recycled Standard– is an international, voluntary full product standard that sets requirements for third-party certification of recycled content, chain of custody, social and environmental practices and chemical restrictions.

The standard aims to meet the needs of companies looking to verify the recycled content of their (both finished and intermediate) products. Also GRS is intended to verify responsible social, environmental and chemical practices in production.

The objectives of the Global Recycled Standard are to define requirements that ensure good working conditions and accurate content claims, as well as minmising harmful environmental and chemical impacts. This includes companies involved in ginning, spinning, weaving, knitting, dyeing, printing and stitching in more than 50 countries.

Information about prices, conditions, and printing techniques can be found on the last page.

WHAT IS BSCI?

Amfori BSCI is part of amfori, the leading global business association for open and sustainable trade. It enables its members to enhance human prosperity, use natural resources responsibly and drive open trade globally. Amfori calls this "Trade with Purpose". In a global marketplace, supply chains are becoming increasingly complex. It's now more necessary than ever for companies to improve visibility over their production – and to drive improvements across their supply chains wherever possible. Since 2003, amfori BSCI has enabled companies to trade with purpose by improving social performance in their supply chain. Amfori BSCI is open to all retail, brands and importing companies committed to improving working conditions in the global supply chain. The system provides companies with a social auditing methodology, and a reporting and remediation system in order to follow the process of continuous improvement. Amfori's strong code of conduct has 11 principles that support the members. These range from fair remuneration to no child labour, along with a step-by-step approach that enables companies to monitor, engage, get empowered and receive support to put sustainable trade at the heart of their business.

BENEFITS–BY TAKING PART IN AMFORI

BSCI MEMBERS CAN:

- Improve the social performance of their supply chain
- Reduce cost and increase efficiency
- Have a clear and consistent approach that highlights best practices
- Improve the resilience of their business to industry and market changes
- Improve their businesses' reputation by meeting the expectations of your customer and stakeholders

Elevate NXT is the next step in promotional apparel. With the garments of Elevate NXT, we follow the supply chain from the source to the branding. Made of recycled polyester or organic cotton, our Elevate NXT styles are truly sustainable. And of course, they have all the qualities you have come to expect from an Elevate product: designed for branding and super comfortable to wear. And as we believe that the branding on a product is as much a part of it as the buttons or the zipper, the inks used for the branding are certified too! The inks used are sustainable and free of any harmful chemicals – meaning they do not contain hazardous substances for humans. Available in six popular promotional colours and our special Elevate NXT blue, this really is the next step in promotional apparel: certified from yarn to inks!

Certified by Control Union
CU 1019665

WHAT IS GOTS?

The GOTS –Global Organic Textile Standard– is the worldwide leading textile processing standard for organic fibres. This standard also includes ecological/ environmental (f.e. energy, water, wastewater and chemical use) and social criteria. The entire textile supply chain is backed up by independent certification and traceability is key in this process.

The Global Organic Textile Standard aims to define worldwide recognised requirements that ensure the organic status of textiles - from harvesting of the raw materials through environmentally and socially responsible manufacturing up to labelling – in order to provide a reliable assurance to the end consumer.

With one certification accepted in all major markets – textile processors and manufactures are enabled to export their organic yarns, fabrics and garments.

Certified by Control Union
CU 1019665

WHAT IS GRS?

The GRS –Global Recycled Standard– is an international, voluntary full product standard that sets requirements for third-party certification of recycled content, chain of custody, social and environmental practices and chemical restrictions.

The standard aims to meet the needs of companies looking to verify the recycled content of their (both finished and intermediate) products. Also GRS is intended to verify responsible social, environmental and chemical practices in production.

The objectives of the Global Recycled Standard are to define requirements that ensure good working conditions and accurate content claims, as well as minmising harmful environmental and chemical impacts. This includes companies involved in ginning, spinning, weaving, knitting, dyeing, printing and stitching in more than 50 countries.

FLEECE & KNITS

HOW TO BRAND YOUR SWEATER?

Our apparel's designed to showcase your brand in a whole new way, with unique imprint locations on both the outside and the inside of the garments.

Inks and other chemical substances used in production process, comply with the strict requirements of GOTS and GRS standards. They are environmentally friendly, containing no hazardous substances for humans.

THIS **PRODUCT** WILL BE **DECORATED** WITH **GOTS/GRS** CERTIFIED **PRINT**

EMBROIDERY

With thread colours to match any logo, embroidery is always a popular choice.

- Classic look
- Up to 12 colours per embroidery
- Perfect for left/right chest and left/right bicep

SCREENPRINT

Time-tested decoration method that enables vibrant and durable graphics on virtually any material.

- Economic choice for large multi-coloured decoration
- Great choice for a distressed look and feel

TRUE EDGE™ TRANSFER

This cutting-edge heat-transfer process produces remarkable clarity and precision.

- Allows for extreme detail like small text
- Four-colour process or spot colour
- Perfect for logos with many colours
- Alternative to embroidery for thin garments
- Maintains integrity of waterproof fabrics

WORKSHOP

HOW TO BRAND YOUR HEADWEAR?

We don't just put a lot of thought into how a garment looks. We also design it to give you plenty of options for branding, allowing you to create the perfect look.

EMBROIDERY

With thread colours to match any logo, embroidery is always a popular choice.

- Classic look
- Up to 12 colours per embroidery
- Perfect for left/right chest and left/right bicep

DEBOSS

Deboss creates a subtle tone-on-tone look with a dye that's heat-pressed into the material.

- Ideal for waterproof fabrics
- Striking 3D appearance
- Apply to almost any location
- Unlimited washability

TRUE EDGE™ TRANSFER

This cutting-edge heat-transfer process produces remarkable clarity and precision.

- Allows for extreme detail like small text
- Four-colour process or spot colour
- Perfect for logos with many colours
- Alternative to embroidery for thin garments
- Maintains integrity of waterproof fabrics

SUPERHEROES!
2 DAY BRANDING

The branding techniques eligible for two-day branding (after E-proof approval) on the SUPERHEROES styles are Screenprint and/or Digital Transfer up to 250 pieces. For other techniques and higher quantities, standard production lead time applies.

Inks and other chemical substances used in production process, comply with the strict requirements of GOTS and GRS standards. They are environmentally friendly, containing no hazardous substances for humans.

THIS PRODUCT WILL BE DECORATED WITH GOTS/GRS CERTIFIED PRINT

SCREENPRINT

Time-tested decoration method that enables vibrant and durable graphics on virtually any material.

- Economic choice for large multi-coloured decoration
- Great choice for a distressed look and feel

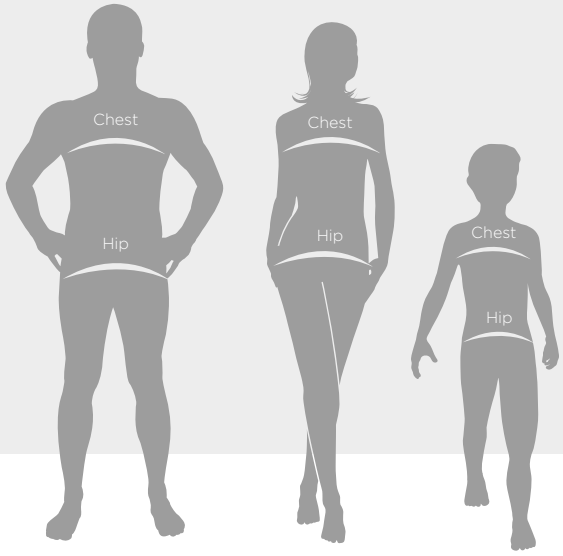
The sizing charts reference body measurements. If you require garment measurements, please contact customer service.

Chest
Under the arms and across the shoulder blades with a firm and level tape.

Hip
When standing, measure around the widest part of the hip.



ICON INDEX

DETACHABLE HOOD

Hood that can be removed.

WEBTECH™

Moisture management is achieved at the yarn stage, where the microfine yarns create a capillary action to channel sweat away.

WICKING

Unique yarns or fabric finishes that transport moisture to the outer surface.

FOLD AWAY HOOD

Integrated hood that can be folded and stowed away in the collar.

THERMALTECH

Stay warm and feel comfortable with a breathable insulated membrane that provides a resistance barrier to extreme elements.

SEAM SEALED

Seam sealed: Permanently covering the inner seams with waterproof tape for long lasting waterproof protection.

PRE-SHRUNK

Fabric or garment has been treated during manufacturing to minimize shrinkage during washing.

SNAG RESIST

Fabric is engineered to prevent snagging.

WATER REPELLENT

Fabric surface is treated to repel water.

EASY CARE

A special finish used on fabrics that prevents wrinkling even after frequent washing.

BREATHABLE

Products allow moisture to escape from the body.

SHIELDTECH

Protect yourself from wind and rain. This technology offers complete comfort in a variety of conditions.

YKK ZIPPERS

YKK® zipper used in the garment. YKK® is the worlds leading zipper brand and represents high quality.

WATERPROOF

Products made of waterproof materials to keep moisture out.

STRETCH

Fabric content provides stretch allowing for a more comfortable fit.

REGULAR FIT

Not too loose. Classic cut that follows the shape of the body with ease of movement.

WINDPROOF

The product's ability to block cold air flow from permeating the fabric.

WATER RESISTANT

Fabric finishes are used to resist moisture penetration.

RELAXED FIT

Generous cut with added ease allowing for loose comfort.

UV PROTECT UPF 15-39

Product provides protection from UV rays. UPF value represents the fractional amount of sun's harmful UV rays that pass through a fabric.

WIND RESISTANT

Product helps prevent wind from penetrating.

TAILORED FIT

More fitted waistline and an overall tighter fit, which accentuates the body shape.

CARETECH

The skilful blending of natural and man-made yarns results in fabrics that have easy care properties.

DECORATION ACCESS

Inside opening for easy decoration access.

GLOBAL FIT

Slightly looser than the regular fit for added comfort.

ANTI-MICROBIAL

Unique finish that controls bacteria growth, prevents odours and maintains garment freshness.

ANTI-PILL

A treatment applied to fabric that resists the formation of little balls or pills on the surface of the fabric.

COMMERCIAL LAUNDRY

This product meets the standard of Industrial Laundry ISO 15797.

3 LAYER BONDED

3 Layer bonded: Three materials of differing characteristics, are joined together, creating a composite fabric with superior performance.

HOODED

Integrated hood.

INTERIOR CUSTOM BRANDING

Product engineered for custom interior branding.

YOUR FINISHING TOUCH

Custom decoration is a great way to reinforce your brand identity. Especially if, as shown throughout this catalogue, you apply it to multiple items. A wide choice of quality techniques, including the impressive new textile method HXD, means you can get both the look you want and the quality you need.

Whether you prefer cool and subtle, distinctively stylish or to boldly grab attention, you can rely on us for expert service. Feel free to ask us for advice and inspiration.

HXD

Unique decoration method • Add dimension to a logo • Perceived value of Embroidery combined with colour range and detail of True Edge Transfer • Durable • Available for a wide range of garments • Max print area: 100 x 75 mm

LASER ENGRAVING

Create a high-class impression • Unique tone on tone • Best on mid-range colours • Unlimited washability

PADPRINT

Great all round cost effective solution • Can be applied on virtually any shape • Suitable for any surface texture, including soft products like stress balls • Perfect for multi coloured logos • Fast and economical

DIGITAL PRINTING

Perfect for multi coloured logos • Create a unique effect with matt, gloss or embossed finishes • Strong resistance to fading or damage • Ideal for small quantities • Can only be applied to flat or slightly curved surfaces

DEBOSSING

Striking 3D appearance • Subtle tone on tone look • Great for real and imitation leather products • Ideal for waterproof fabrics • Unlimited washability

DOMING

Create a 3D effect • Strong resistance to fading or damage • Can only be applied to flat surfaces

EMBROIDERY

Classic decoration technique • Suitable for both flat and irregular surfaces • Tread colours to match any logo • Up to 12 colours per embroidery • Perfect for left/right chest and left/right bicep

INFUSION

Create an untouchable decoration with razor sharp detail • Offers a comfortable, breathable decoration • Offers unlimited colours for one set up

TRANSFER

Ideal for fabrics • Perfect for logos with many colours • Allows for extreme detail like small text • Economical solution for multi colour printing or smaller quantities • Maintains integrity of waterproof fabrics

SUBLIMATION

Premium full colour photorealistic prints • Suitable for polyester fabrics (minimum 60% polyester) and polymer coated products • Soft, flexible imprint that can even be applied over seams and zips • Decoration is resistant to fading and cracking • Only suitable for white products

SCREENROUND

Long lasting results • Apply sharp, high quality decoration on curved products • Economic choice for large quantities • Multi colour decoration available on a selection of pens • Ideal for text

HOTSTAMPING

Exceptional superior impression • Ideal for real and imitation leather product • Available in silver and gold finish

SCREENPRINT

Long lasting results • Good cost effective solution for larger quantities • Allows single and multi colour decorations • Great choice for a distressed look and feel • Can only be applied to flat surfaces

DIGITAL STICKER

Excellent print quality and details • Regularity of sticker shapes • 50cm2 max size • 4 days lead time from e-proof approval
